

ARLINGTON COUNTY POLICE DEPARTMENT

Aurora Highlands, Arlington Ridge, Crystal City, Long Branch Civic Association

Crime Statistics 1/1 – 3/10 2019, 2020, 2021 Comparison

This report is a companion to a report previously done in February 2021 comparing the above four civic association crime data from 2018-2020. The data are presented by Occurred Incident Type and Reported Date. Administrative Reports and Unfounded events have been excluded. Data were queried from LERMS on 3/12/2021.

Across all four civic associations, there are certain data trends – burglary, domestic assault, eluding, narcotics, and weapons offenses are all higher in 2021, and relative to their three-year average. Vehicular destruction of property, larceny from auto and vehicle tampering are all down relative to previous years. While total incidents are down in 2021 relative to 2020, incidents are still elevated relative to the three-year average.
